

The Computop Hosted Payment Page – Your checkout hosted by us

The simple way to handle your payments through the Computop Paygate is via the Computop Hosted Payment page. We take care of the checkout, PCI certification and security standards are on our table. You save time and money, leaving you free to adjust the payment types and design to suit

your specific needs. The responsive design is supported across every device, be it smartphones, tablets, laptops, or desktops, and is fully customizable to suit your shop layout. Needless to say, multiple languages are also supported. Your customers will experience a seamless shopping experience.

Your benefits at a glance

- Individual, easily configurable payment method mix
- Large selection of relevant, globally available payment methods
- Encrypted and secure according to the latest standards
- Responsive design: perfect look-and-feel on all screen sizes
- Customizable layout fitting the style of your shop
- Available in 24 different languages

We can offer you all important payment methods via Hosted Payment Page:
